

DAY 1

AI

IoT

Blockchain

DAY 1

DAY 1

		AI in the Enterprise <i>Available for Gold & Ultimate Passes</i>	AI for Developers <i>Available for all ticket types</i>	Developing for the IoT <i>Available for all ticket types</i>	IoT Innovations & Technologies <i>Available for all ticket types</i>	Connected Industry <i>Available for Ultimate Passes</i>	Data & Security <i>Available for Ultimate Passes</i>	Blockchain Technologies <i>Available for all ticket types</i>	Blockchain for Industry <i>Available for Ultimate Passes</i>	
9.00				Chair's welcome and opening comments	Chair's welcome and opening comments	Chair's welcome and opening remarks	Chair's welcome and opening comments		Chair's welcome and opening remarks	9.00
9.10									Keynote: Understanding Blockchain Technologies & Markets	9.10
9.20				Bridging the skills gap: How industrial/academic partnerships can benefit your IoT business.		Keynote: What is the best route into the IIoT?	Keynote: Data is everything			9.20
9.30		Chair's welcome and opening remarks	Chair's welcome and opening remarks					Chair's welcome and opening remarks	Keynote: Building Cloud based blockchain development environments	9.30
9.40		Keynote: An Introduction to Business Intelligence	Keynote: The AI and Machine Learning Revolution.	Keynote Panel: The future of IoT development	 Bluetooth® Workshop The Expanding Role of Bluetooth in the IoT	Panel: Creating a competitive edge with the IIoT	Panel: IoT data analytics for intelligent decision making			9.40
9.50		Keynote Panel: The application of Deep Learning within an Enterprise	Panel: AI Infrastructure & Development	Case Study: Developing for the IoT			Scalability of data analytics			
10.00		Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	10.00
10.10				Tools and platforms for end-to-end development	Connect your IoT data to a machine learning API in 3 easy steps	IT/OT convergence: the best strategy for the IIoT?	Harnessing the Power of Real Time Analysis in IIoT			10.10
10.20			Case Study: Modeling Sequential Decision Making in Team Sports using Deep Imitation Learning		Consumer IoT – accelerating adoption & monetization	Panel: Manufacturing and Smart Factories of the future	Panel: Blockchain – Building a chain of trust	Case study	Case study: Disney's dragonchain blockchain platform	10.20
10.30		Case Study: Connecting Deep Learning with the IoT	AI Innovations for Tomorrow's Mobility	Panel: Testing in the IoT ecosystem	Safe & Dependable IoT Future: Securing Today's Processors	Process Automation – moving beyond IoT to intelligent objects	Panel: Blockchain – Building a chain of trust	Case study	Panel: The future of bitcoin and blockchain technologies	10.30
10.40		Panel: Enterprise Chatbots and Virtual Assistants: building an AI Strategy	AI Tools & Techniques	Networking Break	Networking Break	Networking Break	Networking Break	Case study		10.40
10.50				Keynote: Massive IoT from the Telco perspective	Panel: Creating a seamless connected building ecosystem: in the home, hospitality and the workplace	Case Study: Clearblade	Preparing for the future of IoT security	Case study		10.50
11.00				Panel: Discovering the world of connectivity – Unlocking the promise of the IoT	Smart homes, smart consumers?	Keynote Panel: Connectivity for M2M devices	Keynote Panel: An E2E approach to tackling data security challenges of the IoT	Case study	Panel: Blockchain from the investor's perspective: A VC view of the marketplace	11.00
11.10				Mesh systems – the next thing in IoT?	IoT Innovation: OPC	Beyond the factory floor – supply chain management	Overcoming privacy and security as a barrier to consumer adoption	Case study	Panel: What are the regulatory implications of using blockchain tech?	11.10
11.20				Networking Break	IoT Innovation: 3D Wearables	Networking Break	Networking Break	Case study	Networking Break	11.20
11.30				Networking Break	IoT Innovation: Security	Networking Break	Networking Break	Case study	Panel: The challenges for the banking industry	11.30
11.40				Which is best for your IoT application: LTE, LPWAN or NB-IoT?	IoT Innovation: AR/VR in Enterprise	Panel: Predictive Maintenance for transforming field services and asset management	Panel: The practicalities and challenges of securing IoT network infrastructure	Case study	Panel: Blockchain as a service (Baas)	11.40
11.50				IoT Reality Check: Starting and Scaling the Journey	IoT Innovation: Payments	Case Study: Industrial Internet of Things in Action	Case Study: Data Protection in USA Market	Case study	Panel: Blockchain for the music and entertainment industry	11.50
12.00			Investor Panel: Financing your AI Innovation	Networking Break	IoT Innovation: Powering IoT Devices	Networking Break	Networking Break	Case study		12.00
12.10				Networking Break	Networking Break	Networking Break	Networking Break	Case study: Bext360 – coffee traceability from farmer to cup		12.10
12.20			Start up Showcase- Using AI & Machine Learning in the Real World	Networking Break	Networking Break	Networking Break	Networking Break	Case study		12.20
12.30				Networking Break	Networking Break	Networking Break	Networking Break			12.30
12.40				Networking Break	Networking Break	Networking Break	Networking Break			12.40
12.50				Networking Break	Networking Break	Networking Break	Networking Break			12.50
13.00				Networking Break	Networking Break	Networking Break	Networking Break			13.00
13.10	Exhibition			Networking Break	Networking Break	Networking Break	Networking Break			13.10
13.20				Networking Break	Networking Break	Networking Break	Networking Break			13.20
13.30				Networking Break	Networking Break	Networking Break	Networking Break			13.30
13.40				Networking Break	Networking Break	Networking Break	Networking Break			13.40
13.50				Networking Break	Networking Break	Networking Break	Networking Break			13.50
14.00		Afternoon Keynote: AI for Everyone	Panel: Driving Digital Transformation through AI & DL development	Panel: Discovering the world of connectivity – Unlocking the promise of the IoT	Smart homes, smart consumers?	Keynote Panel: Connectivity for M2M devices	Keynote Panel: An E2E approach to tackling data security challenges of the IoT	Panel: Blockchain from the investor's perspective: A VC view of the marketplace	Panel: Blockchain in the healthcare system	14.00
14.10				Mesh systems – the next thing in IoT?	IoT Innovation: OPC	Beyond the factory floor – supply chain management	Overcoming privacy and security as a barrier to consumer adoption	Case study	Panel: What are the regulatory implications of using blockchain tech?	14.10
14.20		Panel: Big Data – Creating Intelligent Data Models	Deep Machine Learning in the Embedded Space	Networking Break	IoT Innovation: 3D Wearables	Networking Break	Networking Break	Case study	Networking Break	14.20
14.30				Which is best for your IoT application: LTE, LPWAN or NB-IoT?	IoT Innovation: Security	Networking Break	Networking Break	Case study	Panel: The challenges for the banking industry	14.30
14.40				IoT Reality Check: Starting and Scaling the Journey	IoT Innovation: AR/VR in Enterprise	Panel: Predictive Maintenance for transforming field services and asset management	Panel: The practicalities and challenges of securing IoT network infrastructure	Case study	Panel: Blockchain as a service (Baas)	14.40
14.50				Networking Break	IoT Innovation: Payments	Case Study: Industrial Internet of Things in Action	Case Study: Data Protection in USA Market	Case study	Panel: Blockchain for the music and entertainment industry	14.50
15.00				Networking Break	IoT Innovation: Powering IoT Devices	Networking Break	Networking Break	Case study: Bext360 – coffee traceability from farmer to cup		15.00
15.10				Networking Break	Networking Break	Networking Break	Networking Break	Case study		15.10
15.20				Networking Break	Networking Break	Networking Break	Networking Break	Case study		15.20
15.30				Networking Break	Networking Break	Networking Break	Networking Break	Case study		15.30
15.40				Networking Break	Networking Break	Networking Break	Networking Break	Case study		15.40
15.50				Networking Break	Networking Break	Networking Break	Networking Break	Case study		15.50
16.00		Case Study: Industrial AI & DML		Networking Break	Networking Break	Networking Break	Networking Break	Case study		16.00
16.10				Networking Break	Networking Break	Networking Break	Networking Break	Case study		16.10
16.20		How China is Thinking About AI and Why You Should Care		Networking Break	Networking Break	Networking Break	Networking Break	Case study		16.20
16.30				Networking Break	Networking Break	Networking Break	Networking Break	Case study		16.30
16.40				Networking Break	Networking Break	Networking Break	Networking Break	Case study		16.40
16.50				Networking Break	Networking Break	Networking Break	Networking Break	Case study		16.50
17.00				Networking Break	Networking Break	Networking Break	Networking Break	Case study		17.00
17.10				Networking Break	Networking Break	Networking Break	Networking Break	Case study		17.10
17.20				Networking Break	Networking Break	Networking Break	Networking Break	Case study		17.20
17.30				Networking Break	Networking Break	Networking Break	Networking Break	Case study		17.30
17.40				Networking Break	Networking Break	Networking Break	Networking Break	Case study		17.40
17.50				Networking Break	Networking Break	Networking Break	Networking Break	Case study		17.50
18.00				Networking Break	Networking Break	Networking Break	Networking Break	Case study		18.00
				MeetUp 1	MeetUp 2	MeetUp 3				

DAY 2

AI

IoT

Blockchain

DAY 2

DAY 2

	AI in Consumer & Digital Transformation <i>Available for Gold & Ultimate Passes</i>	Bot & Virtual Assistant Development <i>Available for all ticket types</i>	Developing for the IoT <i>Available for all ticket types</i>	IoT Innovations & Technologies <i>Available for all ticket types</i>	IoT in Enterprise <i>Available for Ultimate Passes</i>	Smart Transportation & Cities <i>Available for Ultimate Passes</i>	Blockchain Technologies <i>Available for all ticket types</i>	Blockchain for Industry <i>Available for Ultimate Passes</i>	
9.00			Chair's welcome and opening comments	Chair's welcome and opening comments	Chair's welcome and opening comments	Chair's welcome and opening comments		Chair's welcome and opening comments	9.00
9.10								Panel: Initial coin offerings, token sales and crowd funding	9.10
9.20			Making Sense of the IoT – Protocols and Alliances	Keynote: Digitally transforming new industries using IoT	Using Hololens to drive process optimization for Enterprise	Panel: Urban Mobility – Creating smart transport systems	Chair's welcome & opening comments	Corda: a unique approach to distributed ledgers	9.20
9.30	Chair's welcome and opening comments	Chair's welcome and opening comments					Case study		9.30
9.40							Case study	Panel: Blockchain and its application in the Energy market	9.40
9.50								Case Study: Gospel technology – Enterprise Trust Fabric	9.50
10.00	Keynote: How to Leverage AI in Digital Transformation	Keynote Panel: Realities of Bot & VA Development and Implementation	Panel: Creating a standards framework for IoT	Lessons we can learn from Insurance and IoT	Keynote Panel: IoT Technologies in Enterprise	Connected Aviation for the Connected Traveller	Panel: How to Build a blockchain Fintech startup?		10.00
10.10									10.10
10.20	Panel: ChatBots – the next generation of messaging apps	Developing a conversational chatbot / VA	Keynote: Opening up the IoT	Panel: Future directions for the IoT in insurance	Keynote: Lessons learnt from the Oil and Gas industries in IoT	Traffic management solutions for Smart Cities.			10.20
10.30									10.30
10.40									10.40
10.50									10.50
11.00	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	11.00
11.10									11.10
11.20									11.20
11.30	Case Study: Future of travel: man vs machine.	Build a better bot with Analytics & Big Data	Panel: Funding your way into the World of IoT	Innovations and opportunities in connected health	Panel: Smart logistics for freight and fleet management	Keynote Panel: The next generation of connected cars and vehicles	Panel: Peer to peer payments – the blockchain mobile payments revolution	Panel: Bitcoin – the technology of trust	11.30
11.40									11.40
11.50									11.50
12.00	Case Study: Dorchester Collection	The Next Generation Voice User Experiences	Start Up Success Story - Yodiwo	Hearables – the next generation of IoT health wearable?	IoT and Remote Container Management	Case Study: Arity	Case study	Keynote: Blockchain and the Telecoms marketplace	12.00
12.10			Start Up Success Story - Zerynth						12.10
12.20			Start Up Success Story 3				Keynote: Red Belly, the unforkable blockchain	Panel: IoT: Blockchain as the key enabler for realising the IoT vision.	12.20
12.30	Panel: The Revolutionising of Customer Experiences through AI	Panel: Inter Bot Communication – get ahead of the game	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	12.30
12.40									12.40
12.50									12.50
13.00	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	13.00
13.10									13.10
13.20									13.20
13.30									13.30
13.40									13.40
13.50			Keynote Panel: Monetisation – Unlocking the revenue potential	Panel: Raising the bar – can IoT improve our fitness and performance?	Managing energy usage in Enterprise using IoT	Keynote: The Smart Citizen's role in creating a Smart City	Case study	Panel: Blockchain in non-governmental organisations	13.50
14.00	Keynote: The Rise of the Virtual Assistant	Afternoon Keynote							14.00
14.10									14.10
14.20			Legal considerations when designing and launching your IoT product	Case Study: Learning from the Players	Panel: Smart buildings and lighting	Panel: Driving investment in the Connected City	Panel: Cryptocurrency wallets	Case study: Mærsk and the revolution in container shipping	14.20
14.30									14.30
14.40	Panel: AI for Social Good	Case Study	Networking Break	Networking Break	Networking Break	Networking Break	Case study	Panel: Building partnerships to help grow financial services blockchain solutions	14.40
14.50									14.50
15.00									15.00
15.10	Examining AI uses in Banking & Finance Services	Start up Showcase – Bots & VA	Panel: IoT architectures for interoperability	Keynote Panel: How is the IoT shaping consumer-brand relationships in retail and beyond?	Smart Farming – growing new business opportunities	Sustainable smart cities	Panel: Identity management and verification on blockchain	Keynote: Humaniq: crypto-finance for the undocumented and unbanked	15.10
15.20									15.20
15.30									15.30
15.40									15.40
15.50	AI – Building Trust, Loyalty and Relationships		Panel: IoT devices	Case Study: IoT in Retail	Panel: Agriculture in IoT – the future of the smart farm	Panel: Connected Spaces – using IoT for public safety and increased quality of life	Case study	Panel: What does the future hold for Blockchain technology – where do we think we will be in 2030?	15.50
16.00									16.00
16.10									16.10
16.20									16.20
16.30									16.30
16.40									16.40
16.50									16.50
17.00									17.00

Exhibition
